

SAFETY DATA SHEET Glass Blowing Mineral Wool

As Glass Mineral Wool Technology products by Knauf Insulation are classified as **NON-HAZARDOUS**, a Material Safety Data Sheet (MSDS) is not strictly required under Australian Regulations. This MSDS is issued by Knauf Insulation for the information of users, installers and the community. It has been formatted in accordance with the Code on Preparation of a Material Safety Data Sheet 2003 Safe Work Australia (SWA – formerly ASCC/NOHSC).

The information in this MSDS must not be altered, deleted or added to. Knauf Insulation will not accept any responsibility for any changes made to its MSDS by any other person or organisation. Knauf Insulation will issue a new MSDS when there is a change in product specifications and/or ASCC standards, codes, guidelines, or regulations

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Knauf Insulation Glass mineral wool

Productname Glass Blowing Mineral Wool

Product number KI_DP_109_________1.2.

Relevant identified uses of the substance or mixture and uses advised against

Identified uses

Thermal and/or acoustic insulation for use in technical applications, industrial applications and in building

construction.

1.3. Details of the supplier of the safety data sheet Supplier

Knauf Insulation

Am Bahnhof 97346 Iphofen Germany

sds@knaufinsulation.com Tel:

+32 4 379 02 31

www.knaufinsulation.com.au

Region ANZ

Country Contact Tel: +64 7 3393 7300

www.knaufinsulation.com.au

1.4. Emergency telephone number

Emergency telephone Tel: +61 (07) 3393 7300

(Monday - Friday, 08:00 hrs - 17:00 hrs)

SECTION 2: Hazards identification

Classified as NON-HAZARDOUS

Physical hazards Not Classified

Healthhazards Not Classified

Environmental hazards Not Classified

2.1. Label elements

Hazard statements NC Not Classified

The following sentences and pictograms are printed on packaging

The mechanical effect of fibres in contact with skin may cause temporary itching.

http://www.knaufinsulation.com/comfort-and-handling 2.3.

Other hazards

Specifichazards Not applicable.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Glass Mineral Wool 99%

CAS number: — EC number: 926-099-9 REACH registration number: 01-

2119472313-44-XXXX

EU index number: 650-016-00-2

Ingredient notes:(1)

Classification
Not Classified

Anti-dust, antistatic and hydrophobic <0.75%

Classification

Not Classified

For full text of H-statements: see SECTION 16.

Ingredient notes (1) 650-016-00-2 - Man made vitreous (silicate) fibres with random orientation with alkaline oxide and

alkali earth oxide ($Na_2 O+K_2 O+CaO+MgO+BaO$) content greater than 18% by weight meeting the requirements of Note Q of regulation n° 1272/2008 and therefore not classified carcinogenicity.

CAS: Chemical Abstracts Service.

Other information Possible facing materials: Polyethylene film.

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation Remove from exposure. Rinse the throat and clear dust from airways.

Ingestion Drink plenty of water if accidentally ingested.

Skincontact If mechanical irritation occurs, remove contaminated clothing and wash skin gently with cold water and

soap.

Eye contact Rinse abundantly with water for at least 15 minutes.

4.2. Most important symptoms and effects, both acute and delayed

General information The mechanical effect of fibres in contact with skin may cause temporary itching.

4.3. Indication of any immediate medical attention and special treatment needed

General information If any adverse reaction or discomfort continues from any of the above exposures, seek

professional medical advice.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media Water, foam, carbon dioxide (CO2), and dry powder.

5.2. Special hazards arising from the substance or mixture

General information Products do not pose a fire hazard in use; however, some packaging materials or facings may be

combustible. Products of combustion from product and packaging - carbon dioxide, carbon monoxide and

some trace gases such as ammonia, nitrogen oxides and volatile organic substances.

5.3. Advice for firefighters

General information In large fires in poorly ventilated areas involving packaging materials respiratory protection/ breathing

apparatus may be required.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions In case of presence of high concentrations of dust, use the same personal protective equipment

as mentioned in section 8.

6.2. Environmental precautions Environmental

precautions Not relevant.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up Vacuum cleaner or dampen down with water spray prior to brushing up.

6.4. Reference to other sections

Reference to other sections For personal protection, see Section 8. For waste disposal, see Section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Usage precautions Avoid unnecessary handling of unwrapped product.

7.2. Conditions for safe storage, including any incompatibilities

Storage precautions To ensure optimum product performance; when packaging is removed or opened; products should be

 $stored\ inside\ or\ covered\ to\ protect\ them\ from\ ingress\ of\ rain\ water\ or\ snow.\ Storage\ arrangements\ should$

ensurestability of stacked products and use on a first infirst out basis (FIFO) is recommended.

Delivered packed in polyethylene film and or on wooden pallets.

Incompatible materials No specific material or group of materials is likely to react with the product to produce a hazardous

situation.

7.3. Specific end use(s)

Specificenduse(s)Thermal and/or acoustic insulation for use in technical applications, industrial applications and in building

construction.

SECTION 8: Exposure Controls/personal protection

8.1. Control parameters

Occupational exposure limits

Glass Mineral Wool

Long-term exposure limit (8-hour TWA): WEL 2 fibres/ml 5 mg/m³ Machine-made mineral fibre (except for refractory ceramic fibres and special purpose fibres)

WEL = Workplace Exposure Limit

None at European level, refer to member state guidelines and legislation.

8.2. Exposure controls

Appropriate engineering

controls

No specific measures.

Eye/face protection Use goggles especially if working above shoulders. Eye protection according to EN 166 is advised.

Hand protection Use gloves to avoid itching in conformity with EN 388.

Other skin and body

protection

Cover exposed skin.

Hygienemeasures After contact, wash hands with cold water and soap.

Respiratory protection Wearing a face mask type in accordance with EN149 FFP1 is recommended when using products in

confined atmosphere or during operations which can generate emission of any dust.

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

Appearance Solid. Glass mineral wool fibres in polyethylene bags

Colour White. / Grey. / Blue.

Odour Not relevant.

Odour threshold No data available.

pH Not relevant.Melting point Not relevant.

Initial boiling point and range Not relevant. Flash

point Not relevant.

Evaporation rate Not relevant.

Flammability (solid, gas) Not relevant.

Upper/lower flammability or

explosive limits

Not relevant.

Vapour pressureNot relevant.Vapour densityNot relevant.Packdensity $\approx 161.4 \text{ kg/m}^3$

Solubility(ies) Generally chemically inert and insoluble in water. Auto-

ignition temperatureNot relevant.Decomposition TemperatureNot relevant.ViscosityNot relevant.Explosive propertiesNot relevant.Oxidising propertiesNot relevant.

9.2. Other information

Length weight geometric mean diameter less 2 standard errors

< 6 µm

Orientation of fibres Random

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity None.

10.2. Chemical stability

Stability None.

10.3. Possibility of hazardous reactions

Possibility of hazardous

None in normal conditions of use.

reactions

10.4. Conditions toavoid

Conditions to avoid None.

10.5. Incompatible materials Materials to

avoid None.

10.6. Hazardous decomposition products

Hazardous decomposition

products

None in normal conditions of use.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Toxicological effects The mechanical effect of fibres in contact with skin may cause temporary itching.

General information Classification not applicable for this product; in accordance with European Regulation

1272/2008, note Q.

SECTION 12: Ecological Information

12.1. Toxicity

Toxicity This product is not ecotoxic to air, water or soil, by composition.

12.2. Persistence and degradability

Persistence and degradability Inert inorganic product - Anti-dust, antistatic and hydrophobic.

< 0.75% Organic Content.

12.3. Bioaccumulative potential

Bioaccumulative potential Will not bioaccumulate.

12.4. Mobility in soil

Mobility Not considered mobile. Less than 1% leachable organic carbon if landfilled.

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB

assessment

Not relevant.

12.6. Otheradverseeffects

Other adverse effects None known.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

General information [17 06 04] Waste codes should be assigned by the user, preferably in discussion with the waste

disposal authorities.

Disposal methods Dispose of in accordance with regulations and procedures in force in country of use or disposal.

SECTION 14: Transport information

General

 $The \, product \, is \, not \, covered \, by \, international \, regulations \, on \, the \, transport \, of \, dangerous \, goods \, \, (IMDG, \, and \, both \, covered \, by \, international \, regulations \, on \, the \, transport \, of \, dangerous \, goods \, (IMDG, \, covered \, by \, covered \, covered \, by \, covered \, by \, covered \, by \, covered \, covered \, by \, covered \, cov$

IATA, ADR/RID).

14.1. UN number

Not applicable.

14.2. UN proper shippingname Not

applicable.

14.3. Transport hazard class(es) No

transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

 $\label{lem:environmentally hazardous substance/marine pollutant No.}$

14.6. Special precautions for user Not

applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transportinbulkaccording to Annex II of MARPOL 73/78 and

Not applicable.

the IBCCode

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EUlegislation

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).

Commission Regulation (EU) No 2015/830 of 28 May 2015.

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).

The European Regulation on Chemicals No 1907/2006, Registration, Evaluation, Authorisation of Chemicals (REACH) enacted on June 1st 2007 requires the provision of SafetyDataSheet(SDS) for hazardoussubstances and mixtures/preparations.

Knauf Insulation mineral wool products (panels, batts or rolls), are defined as articles under REACH and therefore a Safety Data Sheet for these products is not a legal requirement.

Inaccordance with industry practice and voluntary commitments, Knauf Insulation has decided to continue to provide its customers with the appropriate information for the purpose of assuring safe handling and use of mineral wool throughout the product life.

15.2. Chemical safety assessment Not

relevant.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.

ATE: Acute Toxicity Estimate. CAS: Chemical Abstracts Service.

IARC: International Agency for Research on Cancer.

IATA: International Air Transport Association.

IMDG: International Maritime Dangerous Goods.

MARPOL 73/78: International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978.

PBT: Persistent, Bioaccumulative and Toxic substance.

REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006.

RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail.

UN: United Nations.

vPvB: Very Persistent and Very Bioaccumulative.

Glass Blowing Mineral Wool

General information

All products manufactured by Knauf Insulation are made of non-classified fibres and are certified by EUCEB.

EUCEB, European Certification Board of Mineral Wool Products - www.euceb.org. The EUCEB trademark certifies that the manufactured fibres have a chemical composition within the ranges of exonerated reference fibres, which have been tested in accordance with European protocols and have been shown to be in conformity with Note Q, exoneration criteria for carcinogenicity, of the Regulation (EC) 1272/2008.

The mineral wool producers commit to EUCEB to:

- supply sampling and analysis reports established by laboratories recognized by EUCEB, proving that the fibres comply with one of the four criteria of exoneration described in Note Q,
- be controlled, twice per year, of each production unit by an independent third party recognized by EUCEB (sampling and conformity to the initial chemical composition),
- · put in place procedures of internal self-control in each production unit.

Products meeting EUCEB certification requirements can be recognised by the EUCEB logo printed on the packaging.

Further information can be obtained from
